

SSE RIGA

Sharing Economy Contest

The background of the slide is a photograph of a lecture hall. In the foreground, the back of a person's head and their raised right hand are visible. The hand is open, palm facing forward, and is positioned as if voting or participating in a discussion. The person is wearing a dark blue sweater with a grey ribbed cuff. In the background, other audience members are partially visible, and a blurred lecture hall environment with a whiteboard and some equipment on a table can be seen.

Second lecture: Sharing
Economy and business models.

Zoom 20.01.2021.

By

Aivars Timofejevs

Agenda

- Recap on the previous event
- The progress update
- The background
- Stakeholder mapping
- Benefits for sharing
- How to proceed: tips and tricks for report development.

The recap:

Please write in chat 2-3 keywords that you remember from the last lecture!

The definition

The peer to-peer-based activity of obtaining, giving, or sharing the access to goods and services, coordinated through community-based online services. (Botsman & Rogers 2010)

The progress:

Where are you with your ideas?

Have you identified any sharing economy needs and opportunities?

The challenge: <https://www.youtube.com/watch?v=T8L8N9L7HEE>

The background

- The resources:
 - Scarcity and depletion
 - Consumption ahead of renewal
 - Growing demand for wealth
- The climate
 - The climate change is accelerating and immediate action is needed
- The technology
 - Technological developments enable new business models.
 - Transparency and trust are the key issues.

Who are the players?

- Who is your customer?
 - Who will pay for the product or service?
 - How the payment will be made?
- Who is the consumer?
 - Who will use the product?
 - Where and how the product/service will be used?
- Who is the service providers?
 - Information service
 - Payment service
 - Delivery service
 - Other
- What technical solutions (infrastructure) are needed?

The benefits:

- Access to the use the product
- Access to the service
- Get some income from the ownership
- Get the income from delivery
- Get the information about the accessibility
- Provide (sell or share) the services
- Other?

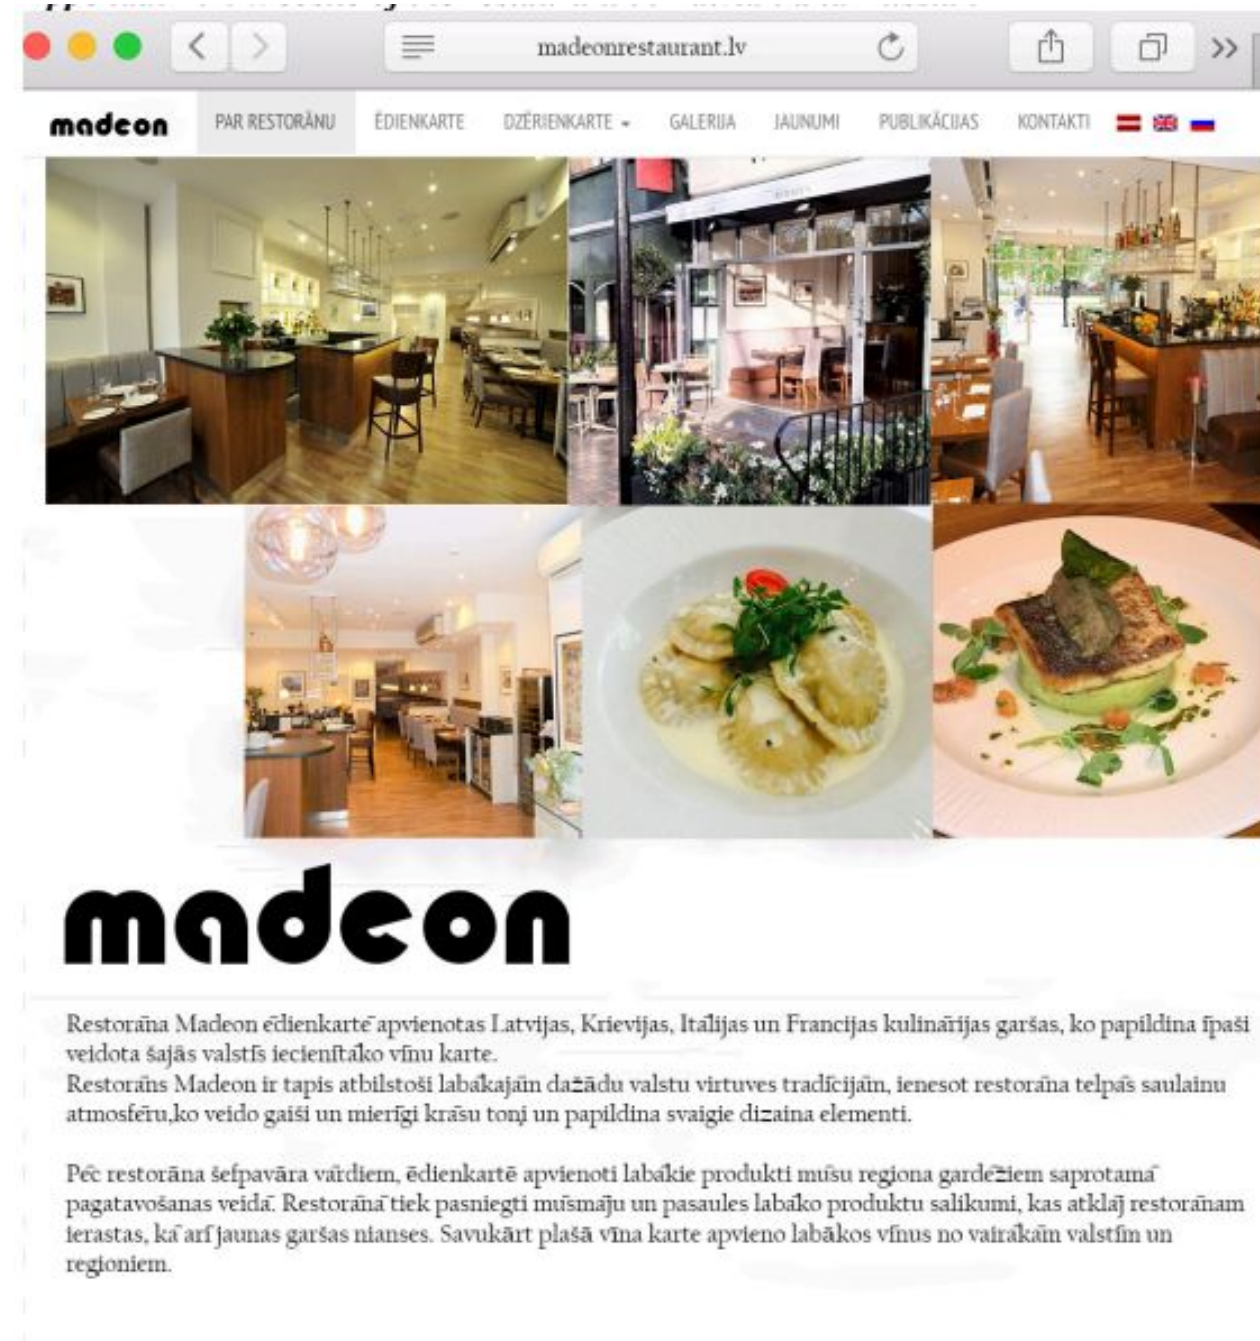

Some tips on the way

- Do some research on the problem
- Brainstorm on the possible solutions
- Define the involved stakeholders
- Identify the (possible) interaction between the stakeholders
- **Talk** to the customers and consumers
- Empathize

Research part

- Googling
 - Language
 - Facts
 - Sources
- Experiment
 - Facebook
- Survey and interviews
 - Structured vs unstructured
 - Target groups
- Observation

Brainstorm

- Facts on the table: what do we know?
- What will be the new and innovative with our idea?
- Why would it be unique?
- Where to find the tech solution?
- How to develop the partnerships?
- Do we have a dream team?

Next

- Submit the draft version of the idea by 11.02.
- The draft should contain:
 - The intro: how did you come up with the idea
 - The general description of the idea
 - Preliminary assessment of the market need and size
 - Indication on benefits
 - The prototype
 - The plan

Feedback structure: according to the assessment criteria (18.02.2021.)

- Any add ons to make the idea more innovative
- Gaps in feasibility
- Argumentation strength
- Scope of the impact: how to make it bigger?

The grand finale: 10.03.2021.

Contacts: still the same 😊
